

### Program Description:

The Massachusetts Gastroenterology Association (MGA) Education Program Committee's mission is to provide practical, evidence-based lectures and seminars to practicing New England gastroenterologists, GI fellows and Advanced Practice Providers. This lecture series covers a broad range of topics in endoscopy, hepatology, and gastroenterology. This course will provide education on recently updated guidelines on the surveillance and management of Barrett's esophagus.

### Program Objectives:

As a result of participating in this program, learners should be able to:

- Apply the most recent guidelines for the management of Barrett's esophagus
- Utilize evidence based techniques to achieve endoscopic eradication therapy in patients with advanced Barrett's esophagus
- Recognize barriers to care and healthcare disparities that may affect our patients

## Massachusetts Gastroenterology Association (MGA) in joint providership with the Massachusetts Medical Society presents:
