MGA ANNUAL SPRING MEETING — APRIL 3, 2021

Updates in Colonoscopy — From AI to Clips to Guidelines

Program Description

The Massachusetts Gastroenterology Association (MGA) Education Program Committee's mission is to provide practical, evidence-based lectures and seminars to practicing New England gastroenterologists, GI fellows and Advanced Practice Providers. This lecture series covers a broad range of topics in endoscopy, hepatology, and gastroenterology.

This course will provide education on recently updated guidelines on colonoscopy screening and surveillance, the utilization of artificial intelligence (AI) in colonoscopy and the practical management of large polyps.

Program Objectives

As a result of participating in this program, learners should be able to:

- Apply the most recent guidelines regarding screening and surveillance colonoscopy for their patients
- Consider the potential for incorporating artificial intelligence into colonoscopy practice
- Utilize evidence-based techniques in the management of larger colon polyps

Massachusetts Gastroenterology Association (MGA) in joint providership with the Massachusetts Medical Society presents:

MGA ANNUAL SPRING MEETING Updates in Colonoscopy — From AI to Clips to Guidelines

Saturday, April 3, 2021, 8:00 a.m.–12:15 p.m.
